Technical Skills

- Programming Languages: HTML, CSS, JavaScript
- Front-end Framework: React
- Version Control: Git
- CSS framework: Tailwind CSS

Soft Skills

- Communication Skills: Active listening to others' perspectives and ability to convey ideas effectively.
- Collaboration and Teamwork.
- Adaptability: Flexibility to adjust to changing circumstances and new tasks.
- Time Management: Efficient organization of tasks and meeting deadlines and workloads effectively.

Education Background

LAB University of Applied Sciences

Business Information Technology
January 2021 - now

Objective

As a dedicated and passionate student with a solid foundation in front-end development, I am enthusiastic about securing an entry-level position in full-stack development. I am eager to contribute my creative problem-solving skills and passion for coding to dynamic teams. Committed to absorbing new technologies, I aspire to foster personal and professional growth in a challenging and innovative environment.

Highlight Projects

Food Order App

- Developed a food order website using React.
- Integrated data fetched from an API to populate the menu.
- useContext, useReducer, useState, and useEffect hooks were combined to efficiently handle the app's state.
- Implemented features including modal visibility, form handling, and user input control smoothly.

To-do App

- Built a to-do app with React.
- Managed to-do tasks seamlessly with useState hook.
- Users can either add a new to-do with a different status or delete the added to-do.
